

# 'Pictor' 0.5KVA Solar Generator Data Sheet

Max Continuous Power Output	500W
Peak Power Output	1400W
Output Voltage (Pure Sine Wave)	230V AC
Output Frequency	50Hz
Running Time (no solar charge)	8hrs at 250W
Inverter Protection	Overload, Overheat, Short Circuit
Circuit Protection	6A B-Type MCB
Earth Fault Protection	40A 30ma RCD
Power Output Connections	1 x Powercon (supplied with adaptors to 13A 4-Way socket & 16A IP-44 socket)
Solar Power Input (continuous during peak sunlight)	207Wp
Set Up Time	5 mins
Weight	160Kg (4 man lift advised)

## Firefly Solar Briefcase (Additional solar panels plug directly into Pictor or Orion)
